## Today

So He Gave \$6,000  
Sad Copper, Sad Oil  
Wanted a King, Got One  
Mussolini Wears Cotton

BY ARTHUR BRISBANE

A FEW EARNEST "drys" will be surprised, others would be surprised, to hear that the intelligent head of a leading ring in Seattle contributed \$6,000 to Senator Jones' 1926 campaign for reelection.

Senator Jones is drier than dry. He is really a law instead of being a law. He would send 50 per cent of our most "respectable" customers of bootleggers to jail.

The bootlegger contributing \$6,000 to a dry senator's campaign must think that prohibition is good for bootleggers.

Senator Jones says he didn't know anything about the \$6,000 contributed to his dry campaign by a bootlegger. His friends fear that the contribution may injure Senator Jones' chances when he runs for the senate again in 1932.

WALL STREET felt very cheerful yesterday, except coppers and oils. They were gloomy, and they ought to be cheerful always. Copper and oil represent two of the nation's greatest sources of wealth.

Our situation is strange. We suffer because we have TOO MUCH of the things that nations need.

Too much wheat makes the farmers poor, too much oil hurts the oil business, too much copper cuts the price below the cost of production in many mines.

It is hard to think of anything you can do for a little rich boy bored to tears with too many toys in his nursery. It is hard to plan anything for a country that has nothing to complain of except that it has too much.

One thing is certain. It will be necessary for the government in its pending to recognize, sooner or later, the fact that there has been a slump and that American prosperity is not the vigorous creature that it was a little while ago.

Is it really necessary to pay all the war debts in a hurry? Why not let another patriotic generation pay part?

"SHELL UNION" his British-Lithuanian company, that has been a railroad spike in the side of American oil concerns, decided yesterday to pass its dividend. No 35 cents a share on the common stock this quarter.

Nobody can imagine how badly Standard Oil, Texaco, Sinclair and other American concerns will feel about that.

AND IN WALL STREET nobody seems eager to borrow any money. It was offered yesterday at 2 per cent "on call." And some unofficially lent money as low as 1 1/2 per cent. Time money was borrowed as low as 3 per cent. This is very sad for banks that were lending loose money at 15 and 20 per cent not long ago.

That golden goose for the time being was butchered very thoroughly. For details apply to the federal reserve. It knows.

DISPATCHES FROM Bucharest say the new King Carol, who decided to come back and put his little boy out of the royal job, plans to get a brand-new wife. He was divorced from his first wife, Queen Helen, after he had departed with a charming lady, making no secret of it.

When he returned from Paris looking "royal" it was said the divorce would be cancelled. Now it is planned to let the divorce stand and get another queen.

## MAY BE QUEEN

Rumanians in Vienna are reported as saying that they understood King Carol, in the event he fails at a reconciliation with Queen Helene, is planning a morganatic marriage with Mme. Madra Lupescu (above), for whom he once renounced the throne.

## SMITH POLLS 10,000 VOTES

Mouser Given 8,583 in Uncontested Race for Republican Nomination.

Carl Smith of Kenton, Democratic nominee for congressman from the eighth district, polled more than 10,000 votes at the recent primary, according to figures just compiled at the Marion county board of elections.

Grant E. Mouser, Jr. of Marion, present congressman, received 8,583 votes, his home county giving him 2,993.

Smith's total of 10,167 was due primarily to Crawford, Hardin and Marion counties, in each of which he obtained more than 2,000 votes.

Fred W. Warner of Marion, candidate for reelection as Republican state central committee man from this district, received 7,687 votes and Gertrude Jones of Findlay, candidate for reelection as state central committee woman, received 6,834.

T. B. Mateer of Mt. Pleasant polled 7,220 votes as the candidate for reelection as Democratic state central committee man, while Mrs. Elizabeth Morgan of Marion, candidate for committee woman, received 7,748.

Votes given Smith and Mouser were as follows: Smith—Crawford county, 2,719; Hardin, 2,386; Hancock, 1,043; Marion, 2,203; Morrow, 560; and Wyandot, 1,276; Mouser—Crawford, 788; Hardin, 1,348; Hancock, 1,503; Marion, 2,993; Morrow, 917; and Wyandot, 836.

The candidates for central committee chairmanships received votes as follows: Warner—Crawford, 634; Hardin, 1,362; Hancock, 1,351; Marion, 2,880; Morrow, 760; Wyandot, 601; Jones—Crawford, 550; Hardin, 1,292; Hancock, 1,348; Marion, 2,318; Morrow, 685; Wyandot, 635; Mateer—Crawford, 2,601; Hardin, 2,012; Hancock, 955; Marion, 1,965; Morrow, 607; Wyandot, 1,080; Morgan—Crawford, 2,093; Hardin, 1,803; Hancock, 841; Marion, 1,681; Morrow, 449; Wyandot, 881.

**JUPE PLUVIUS GETS WELCOME IN RETURN**

Weatherman Says Rain Will Continue Several Days in Ohio.

By International News Service CLEVELAND, O., Aug. 21.—After a lengthy sojourn into parts unknown, at least in other places than northern Ohio, Jude Pluvius, king of the skywater, today returned to cast his dripping shadow on suffering residents and the parched crops.

Bringing an end to the prolonged drought which has held sway in this section of the state for more than two months, Pluvius again entered the picture with his almost forgotten characteristics—a constant downpour.

With the coming of the rain an answer to thousands of prayers was realized. Raincoats and last winter's felt hats were worn with pleasure among the city folk, and the heavy atmosphere seemed to be welcomed with more gusto than any ray of sunshine ever has created.

In the country districts, the downpour of rain resulted in a reign of happiness. Pessimistic farmers turned optimistic, despite the heavy losses the drought has already caused. The arrival of the rain has an assurance that late crops, at least, would be saved.

The weatherman today offered a prediction that deluges would be accompanied with a green and dismal rain. But, he said, he promised that the rain would continue for several days and there was no objection from any one.

## 4,000 CHINESE SLAUGHTERED AS REDS LOSE

Rebel Troops Repulsed by Government Army in Crushing Defeat.

MANY VILLAGES LOOTED

Communists Concentrate Attention on Small Towns; Lose 2,000 Rifles.

By The Associated Press HANKOW, Aug. 21.—The slaughter of 4,000 Communists by provincial troops in western Kiangsi province and the capture of 2,000 red rifles were reported today in Chinese press dispatches.

This apparently is the first crushing defeat administered to the Red marauders who have been murdering, looting and burning throughout the Yangtze valley for several weeks.

Villages Looted  
News of the provincial victory followed closely word of the burning of Wusueh, Hupeh province, by Communists who looted the city of 6,000 population and ransacked the countryside. Wusueh is an important Yangtze river port 25 miles above Kiukiang, Kiangsi.

Fearing for their lives, inhabitants of Wusueh abandoned their property virtually without protest and fled, many going to Kiukiang, where foreign gunboats were anchored.

Communists armies late last month sacked and destroyed large sections of Changsha, Hunan province capital. Later they threatened Hankow, Wu-chang, sister cities 600 miles up the Yangtze from the sea. However, the Reds apparently were frightened away by foreign warships which were rushed to Hankow by American, British and Japanese governments.

Government in Lead  
Since then the Communists have ravaged smaller places, avoiding cities where the national government was concentrated small bodies of troops withdrawn from Honan and Shantung province fronts where the government is seeking to stem the northern alliance rebellion.

Hampered by torrential rains, the civil war itself has lagged.

Although the issue still is undecided, the government apparently has the advantage.

**DAVIS CONFESSES TO SHOOTING EMPLOYER**

25-Year-Old Man Kills Widow After Getting Checks for \$300.

By The Associated Press CARSON CITY, Mich., Aug. 21.—State police and county officers today held to the confession of William H. Davis, 25, that he killed his former employer, Mrs. Doris Loree, 59-year-old widow, after forcing her to write two checks for a total of \$300.

One of the checks for \$200 was cashed by him, Davis, admitted to Sheriff Francis M. Waldo and state police. The other was found in his possession, the officers said, when he was arrested as he returned to his home near here last night after an all-day visit to Grand Rapids.

Davis confessed, officers said, that he was prompted to the crime by a debt of \$82 on his automobile, for which he was being pressed by a finance company. He was quoted as saying that he took his mother, father and sweetheart with him to Grand Rapids yesterday and made the payment.

The prisoner told officers, they said, that he shot Mrs. Loree to prevent her stopping payment on the checks.

**Leader of Opposition to Steel Merger on Stand**

By The Associated Press YOUNGSTOWN, O., Aug. 21.—Cyrus S. Eaton, leader of the opposition to the merger of Youngstown Sheet & Tube Co. with Bethlehem Steel Corp., took the witness stand today in the suit brought by his interests to enjoin the merger.

By The Associated Press YOUNGSTOWN, O., Aug. 21.—John Cholewicki, 11, was killed yesterday when he coasted on his velocipede in front of a truck.

**Former Ambassador Gerard Picks 59 Men Who "Rule" United States**

By The Associated Press NEW YORK, Aug. 21.—In the opinion of James W. Gerard, formerly ambassador to Germany, 59 men "rule the United States."

Mr. Gerard compiled a list of these men for today's New York Times, which asked him to amplify a sentence in a pamphlet he wrote indicting the crusade of Viscount Rothermere and Lord Beaverbrook for British empire trade and high protection.

That pamphlet he wrote: "Give the 60 men who rule the United States 10 years for the development of this industrial empire (the British empire) and a country on earth could approach it in per capita wealth."

Explaining why he, as an American, should write on the subject, Mr. Gerard wrote: "I offer as my excuse the interest that America, in common with all the world, has in the preservation of British prosperity."

The list included leaders in American finance, industry, the amusement field and journalism, but omits President Hoover and all others holding state and national offices save Secretary Mellon.

## SWAP BABIES, END MIXUP

Mrs. William Watkins (left) hands over the baby she has had to Mrs. Charles Bamberger, while Dr. Arnold Kegel, Chicago health commissioner, holds the baby Mrs. Bamberger has had and which was given to Mrs. Watkins. This ended the famous Chicago baby mix-up, officials hoped.

## JULY SEES BOOST IN LIQUOR CASES

Federal Court Docket Lists Increased by 324 Under New Administration.

By The Associated Press WASHINGTON, Aug. 21.—The close of the first month of prohibition enforcement under the department of justice found the number of cases awaiting disposition on the dockets of the federal courts increased by 324.

This was revealed today by the first of a series of monthly reports to be issued by Prohibition Director Amos W. Woodcock. It covered the month of July and gave figures for comparable previous periods with respect to cases on the dockets.

Arrests for the month totaled 6,524, cases bound over to the grand jury by United States commissioners 8,828; cases placed on the docket, 1,918; convictions, 1,392; acquittals and cases nolle prossed, 202; unfinished cases on the dockets, July 31, 22,407.

The average of all jail sentences imposed was 162.8 days and the average fine was \$109.50. A total of 307 permanent padlock injunctions was granted, together 148 judgments of forfeiture.

During the month 1,339,277.5 gallons of beer and 111,072.25 gallons of spirits were seized together with 724 automobiles, 1,063 stills and stilleries, and 12,353 beer fermenting plants.

The total amount of fines for the month was \$218,752.48, and the total number of days in jail imposed 127,804.

**PLANS FOR HOLIDAY WILL BE DISCUSSED**

Labor Day Celebration Committee of Chamber of Commerce Meets Tonight.

Members of the recently appointed Labor day celebration committee of the Chamber of Commerce will meet today at 9:30 p. m. in the Marion hotel to discuss plans for the coming event. The discussion will follow a chicken dinner.

The celebration will consist primarily of a championship wrestling match between Jack Reynolds, world's welterweight champion, and Xagui Joe, Mexican challenger.

Proceeds of the celebration will be used for convention purposes and to advertise the city of Marion. Plans for the program were made by the convention committee of the Chamber of Commerce.

**BATTLES FOR LIFE**

By The Associated Press MISSOULA, Mont., Aug. 21.—John Hughes, 16, was battling death today with X-ray pictures apparently showing a half-inch steel slug in his chest, imbedded there when he struck a wedge with an ax yesterday.

The list in the order given by Mr. Gerard follows:  
John D. Rockefeller Jr., Andrew W. Mellon, J. P. Morgan, George F. Baker, banker; John D. Ryan, copper magnate; Walter C. Tagle, president of the Standard Oil Co. of New Jersey; Henry Ford, Ford Motor Co.; Weyerhaeuser, lumber; Myron C. Taylor, Standard Oil Co.; and others.

Mr. Gerard explains the actual "power behind the throne" is wielded by men whose wealth and important industrial positions in the nation give them a preponderant influence in American life. He says, "The British empire and the United States are the only two countries in the world which are ruled by a few men."

## UNION LEADERS SHOT TO DEATH IN GUN BATTLE

Two Officials of Plumbers' Group Slain at Site of New Chicago School.

UNDERWORLD LIST GROWS

Cuyahoga Falls Contractor May Withdraw from Job After Series of Attacks.

By The Associated Press CHICAGO, Aug. 21.—Charles Mulcahy, business agent of the Plumbers' union, was shot to death yesterday and his assistant, Bernard Ruberry, was fatally wounded.

Two men, who disappeared after the shooting, were sought as suspects today. They are Charles A. Stein, son of the head of the Carl John Stein Plumbing Co., and Albert Courchere, the firm's superintendent.

Work on New School  
The shooting was at the site of the new Lane Technical High school on the northwest side. The union leaders went to the construction office to see Courchere.

The elder Stein, chairman of the arbitration committee of the Building Construction Employers' association, told police Mulcahy and Ruberry came to his loop office yesterday and demanded that Courchere be discharged.

Stein said he refused to do this and that Mulcahy then threatened to call a strike on the construction job. The younger Stein then went to notify Courchere.

No one at the construction site saw the shooting. One workman said he saw the union leaders enter Courchere's office and 10 minutes or so later he heard shots. The workman said he went to the office and saw Ruberry lying outside, bleeding from wounds in the stomach. He found Mulcahy inside, dying.

Youth Hears Shots  
A youth at a barbecue stand nearby heard the shooting and said he saw Ruberry stagger from the office. Two men ran from the office, the youth said, and drove away.

Ruberry, at a hospital, refused to say who did the shooting. He died early today.

The Stein company head told police that Mulcahy had once threatened to kill Courchere during the construction of the Stevens hotel.

Police could learn no reason for enmity between Courchere and Mulcahy, but said that the Plumbers' union had often used "strong arm" tactics.

## HEARINGS OPEN FOR 3 ON RUM CHARGES

State Dry Agents Appear in Probate Court After Series of Raids.

Hearings for three of the five arrested after liquor raids last Saturday night by state prohibition department operatives were being held this afternoon before Probate Judge Oscar Galt.

The hearings were for Mrs. Frances Lucas, William Augustus and Dominic Grapple. The first two are colored.

Mrs. Lucas, charged with possession of intoxicating liquor and transportation, was fined \$100 on each of the two counts by Judge Galt yesterday when he changed a not guilty plea to one of guilty. He was also assessed the costs of the case and his Ford coupe in which he allegedly transported liquor was confiscated and will be sold.

The fifth of the group, J. D. Burrell, colored, was fined \$100 and costs Tuesday when he pleaded guilty to possession.

Witnesses for the prosecution at the hearings today were William J. Dukenberry and Michael Moon, leaders of the "under cover" crew which made the raids. Dukenberry and Moon have been in the city since the first of the month collecting evidence which led to the raids and arrests.

Two others against whom affidavits had been drawn have left the city and can not be found, Moon said. They are Lillian Ferguson and Helen Crosby, both colored.

**Ten-Year-Old Girl Killed in River Road Accident**

By International News Service POWHATAN, O., Aug. 21.—Ten-year-old Mildred Miller of Ballwin, Mo., was almost instantly killed and her grandmother and mother were seriously injured today when their automobile struck a guard pile on the Ohio river highway near here and overturned.

Miss Virginia Kelley, driver of the car, was thrown from the car, but escaped serious injury. Her mother, Mrs. M. M. Kelley, was killed instantly. The girl's grandmother, Mrs. M. M. Kelley, was seriously injured.

The car was traveling south on the Ohio river highway near here and overturned.

## Fist Shaking Bad Practice

Tom Mix Says

By International News Service CHARLESTON, W. Va., Aug. 21.—Tom Mix, internationally famous stage, screen and circus cowboy, today declared, in commenting on a damage suit filed against him at Minneapolis, that he had learned long ago it was "bad practice" to shake your fist in the other fellow's face.

Mix's statement, made exclusively to International News Service, bristled with denials of charges made by John Berres, Minneapolis salesman, that Mix had shaken his fist in Berres' face, had called him names and had put him in great fear of his life.

Due to the alleged incident Berres has asked \$18,000 damages and claims his efficiency as a salesman has been reduced.

"As to shaking my fist in his face," Mix said, "I learned long ago that was bad practice—when the other fellow hit me on the nose."

Mix denied the charge categorically, charged "the man" (he did not name Berres) had used rough language, and denied he had called Berres names.

"As to calling anyone names—that's out of my line," Mix said. "If I did that, I would be making talkies now. Instead of taking chances on breaking my neck twice a day with a circus."

Mix's verbatim statement as Continued on Page Eight

## HEARINGS FOR THREE DELAYED BY ILLNESS

Judge Unable to Preside at Trials for Men Indicted by Grand Jury.

Cases of three prisoners indicted several weeks ago by the grand jury and scheduled for this week have been continued due to the illness of Judge George B. Keefe of common pleas court.

The cases, all of which are to be jury trials, are those of Marion L. Trimmer, charged with auto stealing; Chester Whit, charged with the same offense, and Chester Daly, charged with burglary.

Three other cases, set for next week, also may be continued unless the judge recuperates in time to hear them. They are those of Beale Bibler, charged with grand larceny in connection with the theft of jewelry from the home of Ed C. Walters; Lester Bird, charged with breaking and entering, and William Halcher, charged with being implicated in the Walters theft.

Condition of the judge is such that his physician has ordered him to bed for the week. He is suffering from an infection on the forehead.

## SCHNEIDER TURNS EAST FOR RECORD

Holder of Junior Championship to West After No. 1 Mark on Return.

By The Associated Press ANGELES, Calif., Aug. 21.—Eddie Schneider, newly crowned east-west junior transcontinental speed king, took off at 9:17:30 a. m. (E. S. T.) today in an effort to establish a new east-west junior transcontinental air record. He planned to make his first stop at Albuquerque, N. M.

Schneider recently covered the distance from Westfield, N. J., to Los Angeles in 28 hours, 55 minutes, flying time, bettering the record of 29 hours, 41 minutes set last spring by the late Frank G. Goble.

He hopes to reach the east coast in less than the record of 30 hours, 15 minutes, also set by Goble.

Despite a load of 140 gallons of gasoline, Schneider pulled his little monoplane like a fast climb and quickly was out of sight.

## Old Stuff

WIM ROGERS Special  
TAMBOURNA, Calif., Aug. 21.—Charles Davis goes to Spain to study "Heathen" people, that's his hobby in studying old creatures.

He gave up all business and all governmental interests for years past for a "romantic" quest to study 80 of America's most prehistoric men. Then he went to London to study "old" women whose sole ambition is to get their daughters married.

He was to get their daughters married, he said, so that they could go on to show Charles Davis the "old" stuff.

Amusing, amusing and entered the "Heathen" people's club. He was to get their daughters married, he said, so that they could go on to show Charles Davis the "old" stuff.

## SPEAKERS FOR CITIZENS BACK COUNCIL STAND

Tharpe Says Ohio Fuel Gas Co. Losing Money on Investment Here.

MOUSER LEADS ATTACK

Settlement Likely To Be Left To State Utilities Commission.

Marion will leave its gas rate fight up to the state public utilities commission it was indicated today after a public meeting last night in the common pleas court room when more than 300 citizens heard representatives of the city's business, professional and industrial life discuss the six-year-old controversy with the Ohio Fuel & Gas Co.

Although no definite action was taken at the meeting, the attitude of citizens was being taken as favorable to the stand of city council toward efforts of the Ohio Fuel (Gas Co.) to settle the gas rate war before a decision reached by the utilities commission.

Efforts of the company to settle the question were based on its claims that the utilities commission cannot settle the rate. Council's stand has been just the opposite.

C. E. Merkell, presiding officer for discussion, introduced as first speaker, E. M. Tharpe, who has directed the gas company's fight to gain a higher gas rate in Marion. Tharpe was the only representative of the gas company who took any active part in the discussion last night. He is general manager.

Presenting practically the identical set of facts which repeatedly have been presented in meetings of city council, Tharpe pointed out the inability of the gas company to expend huge sums of money for improvement projects when revenue derived from the present gas rate would not even pay the rate of return on the present investment now in the company. Daring threats, which he said contained information compiled by the United States bureau of mines, Tharpe compared present operating costs of the company and incoming revenue from the gas rate now in force.

The inability of the company to make money from the present gas rate, he said, was due to the constantly increasing overhead expenses and operating costs of the company. What he claimed to be a mounting increase in the cost of gas also came in for its share of discussion.

Tharpe claimed the proposed rate would furnish approximately \$60,000 a year, whereas the net loss annually to the company now is about \$25,000. The new rate, he said, would

**The Stars Say**  
For Friday, August 23

A very propitious state of affairs, in business as well as personal affiliations, may be presaged for this day, judging by the planetary configurations. Employment, new ventures and finances are under a fairly stimulating and fruitful aspect, encouraging to speculation as well as investment and fresh undertakings. There may be some petty anxiety concerning papers or letters, giving rise to vexatious or impulsive speech or acts.

Those whose birthday it is may prepare for a fairly prosperous and progressive year, with employment, new projects and finances flourishing. Investment and speculations should thrive, but there may be small anxieties regarding letters or writings. But this should not justify angry and impulsive words or acts.

A child born on this day may be clever, ambitious and generally capable in employment, where it should find favor and rise to good position. It should be generally popular and attract the attention of those in authority.

**The Stars Say**  
For Friday, August 23

A very propitious state of affairs, in business as well as personal affiliations, may be presaged for this day, judging by the planetary configurations. Employment, new ventures and finances are under a fairly stimulating and fruitful aspect, encouraging to speculation as well as investment and fresh undertakings. There may be some petty anxiety concerning papers or letters, giving rise to vexatious or impulsive speech or acts.

Those whose birthday it is may prepare for a fairly prosperous and progressive year, with employment, new projects and finances flourishing. Investment and speculations should thrive, but there may be small anxieties regarding letters or writings. But this should not justify angry and impulsive words or acts.

A child born on this day may be clever, ambitious and generally capable in employment, where it should find favor and rise to good position. It should be generally popular and attract the attention of those in authority.

# Peacock Washable Frocks

With the Luster of Silk **\$2.95** With the Style of Paris

THESE exquisite new Rayon Peacock Frocks, have been created for the clever Collegian, the sprightly business girl and the woman who entertains and is entertained.

They respond to the Autumn urge for "dress-up," with models that are Paris-sponsored, and at prices that must surely appeal to all who are economically-minded.

Offered in a wide variety of models, of colorfully printed patterns on solid grounds. They are distinctively and delightfully different from the ordinary.

## New Fall Art-Styled Romance Smocks

of Printed Toiles in **\$1.95** Exclusive Patterns

ROMANCE lives again—in these Smocks that turn back the pages of history to those days when gallantry and chivalry prevailed.

The "London Towne" Smock pictures etchings of Merrie Olde England; the "French Empire" Smock portrays the colorful gaiety of that eventful period; and the "Cape Cod" Smock brings back to life the scenes of early New England's rugged coast.

Thus, from cherished by-gone ages comes this new idea in Smock-styling; of inspiring Romance that stirs the heart, and creates the desire to possess and wear these Smocks of alluring lore.

# Party Committees Will Organize for Campaigns

Plans for Fall Political Battles Will Be Made at Meetings Friday and Saturday; Candidates of Both Parties Expected to Attend.

First shots in the coming political campaigns in Marion county are to be fired this week-end when the county central committees of both parties will meet to organize and lay plans for the campaigns which will terminate on Nov. 4 with the general election.

The Republican central committee, of which A. M. Davis is chairman, will meet Friday at 8 p. m. in the common pleas court room in the courthouse, while the Democratic committee will meet at the same place on Saturday at 2 p. m. J. Wilbur Jacoby is chairman of the latter group.

Organization of the two committees, each of which is made up of a representative from each of the 71 city and county precincts, was held up until the board of elections completed the tabulation of votes for committee men cast at the primary election a week ago Tuesday.

In several instances, vacancies exist due to lack of candidates and the committees probably will appoint party workers from those districts to act as members, thereby rounding out each organization with a full quota of 71 members.

Several candidates are rumored to be seeking the chairmanship in each party and contests therefore may result when the groups meet.

Each party also has invited its winning candidates in the primary to be present when the organization meets in order that precinct committees may become acquainted with their party's standard bearers this fall.

Members of the two committees are as follows:

## All Honor Will Be Paid.

The 200th anniversary of the birth of  
George Washington will be observed in 1932  
with one of the most elaborate celebrations  
ever planned in this country in honor of one  
man. Plans were being prepared as early as  
1924 when congress authorized the proposed  
celebration and sent a joint resolution of  
both houses to the state governments inviting  
them to name commissions to aid in preparing  
the celebration.

The federal government plans to make the  
observance national in scope, suggesting a  
detailed study of the life of Washington in  
the public schools and urging the several  
states and large cities to sponsor celebrations  
of their own. The center of interest, of  
course, will be in the capital city where an  
extensive building program costing \$150-  
000,000 is being completed. Here the celebra-  
tion will begin on February 22, 1932, and  
will continue through Thanksgiving day of  
the same year. It is planned to have sev-  
eral projects completed by that time, the  
Mount Vernon boulevard, the new Potomac  
bridge, and an ambitious beautification pro-  
gram in the Washington park system. The  
ruins of the old Potomac canal, which Wash-  
ington helped to build, will be made a part  
of this system of parks.

Speaking of the celebration, former Presi-  
dent Coolidge said: "Washington has come  
to personify the republic."

Washington, who led the colonies in their  
fight for freedom and who guided the des-  
tinies of the young republic, has truly come  
to personify this union of states and we have  
a rare opportunity to do honor to his name.

The new telephone book of New York  
City contains 460,000 listings. How we have  
been coming along. Those in middle life  
can recall when the presence of a telephone  
in a home was taken not only as an utter ex-  
travagance, but also as a bit of ostentation  
closely bordering on snobbery.

A former citizen of Cheboygan, Michigan,  
who was supposed to have been drowned  
there in 1904, has been located in Los  
Angeles and made to pay alimony to the wife  
who for over a quarter of a century has  
mourned over his supposedly sad fate. Even  
so long a period of mourning, it is apparent,  
doesn't necessarily blunt a well-defined thirst  
for alimony.

## Time To Scratch.

This business of being conventional,  
though apparently a necessary formula for  
best social circles, is undoubtedly one of the  
major factors in the general deterioration  
of the nervous system and the shortening of  
life.

Take, for instance, the practice of scratch-  
ing one's head. No other avocation provides  
quite the same economical, convenient and  
thoroughly self-expressive emotional outlet  
as does this ancient rite. Yet because society  
deems it contrary to the best rules of etiquette  
hundreds of persons wriggle painfully  
through operas, bridge parties and social  
gatherings and then rush madly home to find  
solace in a whole-hearted scratch.

A scratch well done injects into one's blood  
the intoxication of a romantic waltz, the  
transcendental hop, the home run with the  
bases full. It is the affirmative response to  
a lover's proposal, the victorious race of a  
ten to one shot and the stimulation of the  
morning coffee. The only necessary imple-  
ments are the four fingers of either hand and,  
like your checking account, you get out of it  
just the amount deposited.

Take a lesson from the dog. His scratch-  
ing knows no conventional barriers. We have  
seen him sit down in the very midst of a  
romp with the children, suddenly extend that  
left hind leg and give his ear a vigorous dust-  
ing. We have seen him break a perfect point  
to roll over on the ground, fill his glossy coat  
with burrs and come up scratching again.  
That is real scratching.

This is not a plea for endurance scratch-  
ing contests, or for scratch luncheon clubs,  
because it isn't something to be organized.  
It's something to be exercised—just as often  
and as vigorously as necessary.

But we'll venture that if society provided  
a few scratch parties, or at least permitted a  
few scratch intermissions in its routine af-  
fairs the world would be considerably happier  
and a darn sight more comfortable.

The Australian warship, Anzac, steamed  
from Melbourne into the very teeth of a hur-  
ricane to carry a surgeon to Gabo Island, a  
mere rock off the eastern coast of Australia,  
where the lighthouse keeper's wife was dying  
for lack of surgical attention. The Anzac  
was battered by the storm and swept by  
mountainous sea, but rode the storm out and  
landed the surgeon, who operated and saved  
the young woman's life, and today all Aus-  
tralia is thrilled by the story of the race  
with death. Nothing more appeals to man-  
kind than heroism in answering the call of  
humanity.

## Reunion Season.

It's family reunion time again. Although  
scattered out generally over the summer  
months, August seems to have drawn more  
than any other month. Perhaps for the  
same reason that August has so many pri-  
maries.

The "moderns" don't profess to go in for  
family reunions like their parents and grand-  
parents, but the latter, fortunately, still are  
in impressive majority. Some day there may  
be no more reunions when all the moderns get  
grown up and in control but that's a long  
time yet.

Piles of toothsome, golden brown fried  
chicken, swirls of glistening, creamy mashed  
potatoes, bowls of succulent, surprising pota-  
to salad, fat, fragrant rolls, rectangles of  
spicy, nut-brown meat loaf, long rows of  
cakes under shrouds of waxed paper, coffee  
and lemonade in wash boilers, every one  
sitting down at once to eat twice as much as  
usual. Over here two old grandfathers  
sucking on ancient pipes and chuckling over  
the time they switched go-and-no's buggy  
wheels, suddenly becoming wistful as they  
shout "Hello" to a little, white-haired lady  
who might have been a bride to one of them,  
but married out of the neighborhood and  
went to live in the next township. Dozens  
of names registered in the secretary's book.  
Cynthia who married well and whose husband  
is now a big lawyer in the city and there's  
Amanda's two fine boys and one of them  
is studying to be a doctor. And then after  
a long lazy afternoon of gossip the yearly  
meeting, reports of the new-born and the  
recent-dead and every one saying "Goodbye"  
until another year, some of them afraid there  
won't be another year, but smiling bravely  
and watching old friends drive down the  
road for the last time.

Yes, the family reunion may be on the de-  
cline, but even so there's nothing that com-  
pares with it for just plain, ordinary living  
—meeting folks and talking things over.

A great crate, marked "Automobile de  
luxe," shipped by a Swiss firm to the  
"Emperor of Abyssinia," attracted the at-  
tention of French customs inspectors, who found  
it to contain one of the largest and most  
heavily armed and armored cars ever con-  
structed. Can it be that the emperor of  
Abyssinia is planning to take to rum-run-  
ning, or something like that?

On the strength of the showing that the  
latest Chicago defendant in a \$250,000  
branch-of-promise proceeding has been mar-  
ried five times, we are inclined to feel that  
there may be something in the claims of the  
divorcee who is the plaintiff. A man ad-  
dicted to marrying like that may possibly  
have proposed through force of habit and  
then forgotten about it.

Officials of the various dress unions in  
New York have appealed to the authorities  
there to apprehend racketeers who have been  
holding themselves out as union agents and  
preying on the dress interests there, repre-  
senting a combined capitalization of \$350-  
000,000, and compelling the payment of over  
\$2,000,000 annually. It might be wondered  
why the employers came across on the repre-  
sentation of the racketeers that they were  
union agents if racketeering in that way was  
new to the dress interests there.

## The Apaches of Paris.

BY TEMPLE MANNING.

One of the first things the average American  
visitor to Paris asks to see is the Apache, no-  
torious French bad man of the movies. It is true  
your Parisian does not know quite what is meant  
by the way the American pronounces the word.  
The French call it "A-pash," while the American  
has been taught the Indian pronunciation, which  
is "A-patchee." So when you are in France call  
this "A-pash" and you will get along better.

You may hunt Paris high and low and I doubt  
if you will ever find the picturesque brigand de-  
picted on the stage in the so-called Apache dance,  
which had a great vogue, and later was trans-  
lated into the movie. There is, however, a very  
definite Apache in Paris, and he is a bad cus-  
tomer to meet in a dark street at night. Almost  
any kind of a crime of violence is blamed on him  
by the police. Before the World War there may  
have been a sort of organized band of these out-  
casts, but when the war came along the police  
made a grand drive and landed most of them in  
the Foreign legion, where, by the way, many made  
exceptionally good fighters.

But the fame of the Paris Apache had spread  
too far to let him die that way. Cabaret and res-  
taurant proprietors began putting on the spurious  
article in their entertainments, and, while he was  
certainly a villainous-looking person, he was not a  
bad man. He danced well and threw his female  
partner about in what was supposed to be ap-  
proved Apache style, and the customers believed  
they were seeing the real thing. But don't put  
too much stock in offers to take you slumming  
among the Apaches of Paris. About all you will see  
is a poor counterfeit, while the real bad man pur-  
sues his business of keeping out of the public eye  
and the hands of the police.

But, with or without the Apache, the Mont-  
martre continues to draw the visitor to wicked  
Paris. It's a curious section, this Montmartre  
and its air is of carefree joyousness lying in the  
shadow of one of the most beautiful churches in  
the world, Sacre Coeur. High above the revels  
stands this stately edifice and one wonders now  
and then if buildings, like persons, can feel a sort  
of resentment against their surroundings. If they  
can, the Sacre Coeur must have such a feeling.

Sacre Coeur is not one of the old edifices of  
the church. It was begun in 1876 and is in the  
Romanesque style, but is surrounded by a Byzan-  
tine dome which stands forth for all to see. Be-  
hind this dome rises the lofty belfry containing a  
bell presented by the diocese of Savoy, and thence  
its name "la Savoyarde." It weighs about six-  
teen tons.

## AN INDUSTRY UNAFFECTED BY DRY CONDITIONS.

## Editorial Opinion.

## A PROLIFIC NUT

Prophets of the Wellston school who find delight  
in picturing the future progress of mankind have  
frequently foretold a time when a whole meal  
may be concentrated in a small cube. But why  
stop there? Even now there exists a common  
natural product, a nut with properties so ex-  
traordinary that its high food value becomes in com-  
parison almost negligible. A negro scientist of  
Tuskegee institute has experimented for years  
with this nut and asserts that he has extracted  
from it products which have a hundred uses. The  
materials obtained from this nut, he says, may  
be used to grease an automobile, to cover a kitchen  
floor, to feed the cow and the horses, to stain  
furniture, to dye garments, as a pickle, breakfast  
cereal, a beverage resembling cream to wash  
dishes, powder the nose and make paper, ink and  
rubber. Mr. Edison will note the last possibility  
with interest.

This marvelous product is the peanut. Who  
ever dreamed that a peanut stand was a potential  
drug store, grocery, garage, hardware shop and  
stationery store combined? Perhaps some day an  
inventive genius may create a household chemical  
plant for processing peanuts to extract from them  
some of these innumerable synthetic materials.  
Until that time arrives the housewife must be  
content to shop for the necessities of life.—New  
York Sun.

## MARRIAGE RATE APPARENTLY RISING.

Reports from one-third of the forty-eight states  
show that the marriage rate increased for 1929 in  
a dozen and declined in four. It gained, too, in  
the District of Columbia. In nine states and the  
district divorce also increased. Pennsylvania is  
not included in the preliminary returns; but Dela-  
ware and New Jersey both registered marriage  
gains and divorce recessions.

Until a complete summary is available little  
can be definitely told about the trend in the whole  
country. Local conditions which operate favorably  
in one community may have an adverse influence on  
the neighboring territory. The marked rise in the  
matrimonial rate for Nevada, for instance, which  
is the most notorious divorce center in the union,  
may probably be explained by the migration of  
couples from elsewhere. Similarly South Carolina, which  
grants no divorces, has increased the burden for North  
Carolina and Georgia, where South Carolinians go  
to seek separation.

Students of social conditions are not much en-  
couraged at discovering a rise in the marriage  
curve if it is the same time accompanied by a rise  
in the divorce curve. But there is evidence in the  
present statistics of a net gain that may be later  
reflected hopefully for the whole United States.—  
Philadelphia Inquirer.

## Maryland, My Maryland.

BY J. H. GALBRAITH.

The late General Isaac R. Sherwood tells  
an interesting story in his "Reminiscences of  
the Civil War" of the circumstances under  
which he first heard the song, "Maryland, My  
Maryland," which he declared was the most  
popular war song in the South during the  
Civil war, even "Dixie" being less esteemed.  
It was written during the early months of  
the war by James B. Randall, a Marylander,  
with the object of inducing his state to join  
the confederacy.

It was one October night in 1863, when the  
army to which the general was attached was  
making its way over the Cumberland  
mountains. It was on the Holton river, in  
eastern Tennessee, and being the officer in  
charge of the sentinels, he rode through the  
highway along which they were advancing  
late in the night to observe how well the  
watch was being kept. There was no moon,  
but the sky was clear and as he passed a  
farmhouse he heard the clear notes of a  
piano, to which a young woman was singing  
the verse beginning "The tyrant's foot is on  
thy shore, Maryland, My Maryland."

Looking through the window from where  
he sat on his horse, he saw a confederate  
officer standing beside the piano. The young  
woman was singing to him. As he looked,  
and before the verse was finished, a shot rang  
out in the still night. A sentry nearby had  
seen something that alarmed him and he shot  
to spread the alarm. The singing hurried to  
a semi-colon. General Sherwood hurried to  
the scene of the alarm, and, as he learned  
afterward, the confederate scout officer to  
whom the young woman was singing, darted  
out into the darkness and made good his escape.

General Sherwood said he never heard the  
rest of the song "My Maryland," until after  
the last battle of the Civil war, at Salisbury,  
North Carolina, in May, 1865. In spite of  
its strong confederate sentiment, he could not  
but admire the tune, and concede that words  
and music were wedded in a manner to have  
great effect upon the hearer, as it did upon  
him that starlit night on the Holton river, in  
Tennessee, two years before.

## Keep Grapefruit Fresh.

BY ROYAL S. COPELAND, M. D.

Every one should cultivate a taste for the citrus  
fruits. They are good for the health. They in-  
crease vigor and stimulate the bodily functions.

Grapefruit, or "pomelo," or "Shaddock," as it  
is called in some parts of the world, is the largest  
member of the citrus family. Its smooth, yellow  
rind makes it attractive to the eye. Its peculiar,  
stimulating acid flavor and its slightly bitter taste  
make a real appeal to those who have cultivated a  
taste for it.

The citrus fruits, especially oranges, grapefruit  
and lemons, are exceedingly valuable foods for  
every one. They give us the very essential vita-  
mins A and B. They are rich also in vitamin C.  
Certain valuable mineral salts necessary to growth  
are in them. Also we find some cane and invert  
sugars, which vary in quantity from one to ten  
per cent.

They contain considerable amounts of acid, al-  
though not as much as lemons do. They possess  
citric and phosphoric acids, with a trace of malic  
acid.

The fruit acids are not to be dreaded because  
they do not turn the system acid. They are elimi-  
nated from the body as alkalies and really serve to  
overcome what is commonly called "acidity."

Grapefruit was native to China and other parts  
of Asia. It is grown in the West Indies, as well  
as in Oriental tropical countries. The fruit is  
comparatively new to the United States.

The citrus fruits industry in this country has  
made rapid strides in the past few years. Florida  
and California produce the largest quantity.  
Even in very dry sections these fruits are produced,  
irrigation providing the necessary moisture.

The bureau of plant industry has for several  
years given particular attention to the propaga-  
tion of citrus fruits. New methods have been  
worked out for improving all of them.

There is great advantage in knowing how to  
handle grapefruit. In the home and in the retail  
store they have to be kept in a cool and dry place.  
They may be kept for several weeks under the  
proper conditions, which is a much longer time  
than most fresh fruits picked ripe from the tree  
will last. The household refrigerator, if it main-  
tains the proper temperature, is a good place for  
the grapefruit.

If there shows any sign of decay, and grapefruit  
is apt to be attacked by blue mold rot under some  
conditions, the fruit so affected should be taken  
out and discarded at once. Such decay is very  
rapid in the ordinary temperature, two or three  
days being a sufficient time for it to appear.—

## The Study of Genius.

BY ARCHIBALD HENDERSON.

For those who hold the faith of a divine  
origin for man, much support may be found  
in the contemplation of genius. It is un-  
necessary to say "human" genius, for so far  
as we know, there is no other kind. The  
genius is a sort of unestablished proof of  
man's godlike origin. Genius is a constant  
reminder of the vast, towering possibilities  
of the human mentality; and therefore the  
human genius should be celebrated and her-  
alded. For it serves as an incentive to man,  
spurring him to effort, demonstrating what  
he can accomplish, and showing him how  
inadequately and ineffectively he exerts the  
power at his disposal.

Although the individual genius has been  
consistently studied, and abnormal aspects of  
genius have attracted the attention of many  
writers and scientists, comparatively little  
has been done to formulate the laws of  
genius, determine the principles which govern  
it, and arrive at valid generalizations regard-  
ing its origin, appearance and manifestations.  
The recent work of the distinguished neurologist,  
Beverly R. Tucker, is an attractive  
study, delightfully readable and at the same  
time solidly based on scientific knowledge.  
The title of the book, "The Gift of Genius,"  
indicates the view of the author that genius  
comes, settling, upon the brow like the  
Biblical tongue of flame.

It is well to have clearly indicated at the  
outset that there are four things which chiefly  
affect a man's career: Heredity, environment,  
circumstance and inner urge. Tucker, who  
raises the question whether so-called "learned  
authorities" are really learned, is unwilling  
to accept without qualification the dicta of  
acquired traits or characters can not be  
transmitted. How, then, shall we account  
for the Grecian or Roman sage, the Haps-  
burg lip, for example? Perhaps certain  
traits or characters are definitely trans-  
missible; within a certain range—a taking a  
longer or shorter time, as the case may be,  
for their exhibition through inheritance.

The ordinary individual is profoundly re-  
sponsive to the form, pressure and complex  
of his environment. The genius might al-  
most be defined as he who dominates his en-  
vironment, triumphs over it, and finds his  
release as genius through such triumph. Yet  
man can not wholly escape his environment,  
which exerts its influence whether man is  
conscious of it or not. Environment is mold-  
ing but not creative in its effect. It may  
color the expression of man's traits without  
being able to create them.

An ancient Greek philosopher said that  
character is destiny; and that view has been  
echoed by one of the latest and most fas-  
hionable mystics. But we can not rephrase  
this classic aphorism into the form "genius is  
circumstance." According to Gray in his  
famous elegy, the graveyard of a country  
churchyard might be filled with the remains  
of "mute, inglorious Miltons." The world,  
however, concerns itself about the suppressive  
character of circumstance. The genius makes  
his own circumstance; he does not permit  
existing circumstance to crush or sup-  
press him. It is only the poet's fancy that  
"full many a flower is born to blush un-  
seen." It is a fancy which is not susceptible  
of scientific proof.

It is scarcely open to question that genius  
never lacks a certain latent creative thrust,  
which may be called the inner urge. But  
unfortunately we can draw little value from  
this conclusion. The inner urge, speaking  
mathematically, may be a necessary but not  
a sufficient condition for genius. Countless  
men and women have harbored this inner  
urge; but through the lack of certain other  
qualities, through misdirection or imperfec-  
tion, the inner urge failed to flower into  
genius.

Geniuses have told me, on more than one  
occasion, that they felt themselves to be  
agents of some higher power, instruments for  
the expression of some mysterious life force.  
The expression says: "Genius knows not time nor  
order, nor circumstance. Genius burns his  
candle at both ends. Genius, in order to cre-  
ate, creates itself; it subjugates, crushes, con-  
sumes other faculties. The only regard of  
genius is genius alone, indestructible, without  
heredity, without environment, without con-  
vention, inexplicable." Like radium, genius  
feeds upon itself interminably and emanates  
from itself unendingly, and, withal, it is so  
luminous, that we must dim our eyes to be-  
hold it, or else we lose our sight.—Copyright,  
1930, International Feature Service, Inc.

## New York Day by Day.

BY O. O. MINTYRE.

New York, Aug. 21.—Elderly ladies in New  
York refuse stubbornly to grow old. In  
other years there was a conviction among  
women past sixty that nothing mattered.  
Their lives seemed to congeal and they were  
seldom seen in public.

They were shunted into inactivity through a  
general belief they had their day. This  
frustration was encouraged by the majority  
who thought venerable women looked utterly  
foolish if not sitting complacently in cor-  
ners with hands folded in their laps.

Today at the theater and opera women  
past sixty and seventy and even eighty are  
seen in evening dress enjoying themselves.  
They learned all of a sudden that stagnation  
was largely psychological instead of physio-  
logical.

They attend bridge parties in the after-  
noon, dinners in bright cafes at night, and  
every supper club has a sprinkling of silver-  
haired matrons who would have gaped at  
such doings twenty years ago. These do not  
include foolish old ladies squirmed about by  
zigzogs.

# Race Drivers DEMAND the TIRES WE SELL!

THE Indianapolis 500 Mile Endurance Race is famous as an endurance test and battle of tires for no driver can win this race who has tire trouble. He races over a hot brick track at a speed of 100 or more miles per hour. For eleven consecutive years Firestone Gum-Dipped Tires have been on the winning cars.

FOR years the winner of the hazardous race of Pike's Peak climb—where a slip meant death—used Firestone Gum-Dipped Tires.

1. THESE drivers do not simply choose Firestone Tires. They demand them. They know by experience that this tire never fails. It never fails because it is built not to fail by the special Firestone processes of tire building.

(a) Every fibre of cotton thread going into the making of the cord fabric, which is the foundation of the tire, is coated and cushioned in rubber by the Firestone patented Gum-Dipping process.

(b) Under the tread is the Firestone patented Gum-Dipped Double Cord Breaker—which means not only two extra plies where most needed, but also sets the Firestone Tire apart as an all cord tire, while others are woven fabric and cord.

(c) Firestone Super High Speed Tires now have 32% more rubber in the tread, giving deeper grooves that will give you over 50% more non-skid wear before the tire is smooth.

2. THESE are not just features. They are basic differences in tire building proved by service on every kind of road and track.

3. YOU may never intend to race. You may never intend even to speed. You may never climb Pike's Peak. But, every day—whether you know it or not—your life depends upon your tires.

4. WE HAVE these Super High Speed Gum-Dipped Balloons for sale today. They are the same tires that the racing drivers demand—the premier tires of the world. Their first cost is low. Their cost per mile of service makes them cheaper today than even cheap tires. They are inexpensive, not only because the price of rubber is low, but because we have joined with Firestone to bring into the sale of tires the same degree of efficiency which goes into their manufacture. The benefit of all this is in the price to you.

5. DRIVE IN TODAY. We will examine your tires and make you an allowance for your unused mileage. We can equip your car with new Firestone Super High Speed Tires at a much lower cost than you ever expected. They will give you unequalled service and satisfaction.

He may marry the lady with whom he departed, but, if so, it must be a "morganatic" marriage. A king cannot marry in the regular way, any one but is not "royalty."

Romans thought they needed a king and they have got one.

IT IS HOT IN HOME and Mussolini sets a good example, appearing in public wearing a suit of white cotton, a soft collar, white canvas shoes made of cotton, a white yachting cap also of cotton.

If men here would adopt the idea, wearing cotton in summer, they would be more comfortable and the cotton farmers more prosperous.

For those that can't afford too much "dry cleaning," the cotton suits could be dyed gray, brown, black.

LAWYERS GATHERED AT the solemn Bar Association meeting today to poll the bar of the country and learn what it thinks of prohibition.

Some lawyers objected, saw a "lack of propriety" in such a poll. But a vote, ten to one, decided to ask lawyers, "Is prohibition a success or a failure, a blessing or a curse?"

Since the laws are made 99 per cent by lawyers, and interpreted 100 per cent by other lawyers on the bench, the lawyers' opinion is important.

IT IS DIFFICULT to think of anything in the way of murderous violence that our prohibition-bootlegging-crime wave has not produced. But somebody in Portland, Me., thought of something new. This person, unknown, overcame Police-mun Michael T. Connolly, tied his wrists together with his own handcuffs, threw him in the water at Portland, Me., and drowned him.

The police are looking for a former middleweight boxing champion, suspected of the crime.

REFINED SUGAR yesterday dropped to the lowest price "for all time," 4.55 cents a pound.

Apples are cheap.

Take apples not quite ripe, boil them, let the juice drip from a bag, then squeeze the bag. Make apple jelly, one cup of sugar to one cup of apple juice, and you will have through the winter an excellent nourishing and cheerful food for your children. That jelly on bread, with fresh butter under the jelly, is a food almost complete, vitamins and all.

JACK ZUTA, CHICAGO gangster, murdered by competitors—cashier, officer of Chicago legislators, public officials and "reformers"—collected "bribe" money. His theory was "they can't always be good." Police say he had \$150,000 worth of the precious stones hidden somewhere and are looking for them.

That's the other interesting piece of crime news.

THE PENNSYLVANIA Supreme Court confirms Clifford Pinchot's nomination for governor on the Republican ticket.

## TERMS LONGER.

Officers of Ohio Federation of Labor To Serve Three Years.

COLUMBUS, O., Aug. 21—Officers elected at today's session of the 47th annual of the Ohio Federation of Labor will serve three years instead of one.

This plan was approved yesterday when the delegates adopted a resolution extending the term of office. The motion was submitted on the ground that more than one year is required for an officer to familiarize himself with his work.

Initiations were that Harry McLaughlin of Cleveland, president, and virtually all other officers would be re-elected.

## SIXTH KILLING RECORDED

List of Underworld's Victims Grows in Cleveland As Alessi Dies.

By The Associated Press CLEVELAND, Aug. 21—The underworld's sixth slaying in the last two months was recorded today with the death of Frank Alessi, known to police as a figure in the corn sugar industry.

Alessi died early today from bullet wounds received as he kept an appointment at a downtown parking lot early Tuesday.

Before his death, Alessi violated the code of the underworld and named Frank Bracento as his assailant. Bracento, who has been out since a short time after the shooting, was to be charged with the killing today.

## FEARS FOR LIFE

Contractor On Cuyahoga Falls May Withdraw After Series of Attacks.

By International News Service CUYAHOGA FALLS, O., Aug. 21—Fearing for the safety of his life and his family, Karl Garner, president of the Garner Construction Co., of Warren, which has fallen prey to vandalism which he alleges may be "spite work" on the part of competing contractors at the Buena Vista allotment, today admitted that he contemplated withdrawing from the job.

Garner said that although he has expended \$10,000 in starting excavation work at the Buena Vista allotment, he may withdraw his six carloads of machinery and haul it back to Warren, 40 miles distant.

An army of more than a score of deputy sheriffs and police officers of Akron and Cuyahoga Falls guarded the allotment last night to prevent any attempted repetition of the bombings which have occurred during the last three weeks, destroying property and endangering lives.

Garner, who narrowly escaped serious injury or death Tuesday night during a pitched gun battle on the allotment, scouted the theory that the attacks were the work of union men because of his open-shop operation.

He alleged today that the attempted sabotage is "spite work" on the part of some contractor or contractors whose bids for the construction job on the allotment were rejected.

## MARION MAN GOES TO ZANESVILLE POST

William T. S. Hill Named Secretary of Y. M. C. A. After Work Here.

William T. S. Hill, former physical director at the local Y. M. C. A., has been named general secretary of the Y. M. C. A. at Zanesville, succeeding Jay T. Miller who resigned.

Mr. Hill who has been employed as general secretary at Augusta, Ga., began his work in Marion 21 years ago. He has been with Pittsburgh associations, was in war work on the Mexican border, at Augusta, Ga., and Gulfport, Miss., naval training station, later secretary of the Mobile, Ala., Y. M. C. A. He went to Augusta from Mobile and served six years in the Georgia city.

Mrs. Hill is the daughter of Mrs. Frank Gable of Edgewood drive, this city, and is a graduate of Marion high school.

## HOLD DETROIT MAN FOR BEATING BOY

Austin Goodfellow Held for Attack on Youth on Highway Near Hamilton.

By International News Service HAMILTON, O., Aug. 21—Charged with having severely beaten Herschel Arnold, a 16-year-old farm boy, on Milliken road near here, Austin Goodfellow, 27, of Detroit, is being held today on an assault and battery charge.

Goodfellow and Charles Rider, 19, of Chickering, Iowa, a companion, are said to have attacked Arnold when he picked up a piece of rope while he was walking along the road. The two strangers are alleged to have claimed the rope and set upon the Arnold boy when he would not relinquish it. Deputy sheriffs arrived on the scene of the beating just as a group of enraged farmers were about to set upon Arnold's attackers.

Rider was not held.

## GROWS HOTTER

Squabble Between Mrs. McPherson and Mother May Lead to Court.

By International News Service LOS ANGELES, Calif., Aug. 21—The "Tantrum Drama" of Aimee Semple McPherson, evangelist, and her pastor mother, Mrs. Minnie Kennedy, today threatened to include a courtroom act, as Mrs. McPherson was quoted as saying she was considering filing suit against her mother.

At the evangelist's bedside it was said Mrs. McPherson was preparing to issue an ultimatum of "Ma" if the latter does not stop attacking her and temple policies.

It was said Aimee's personal representative would call upon her mother and warn her that if she does not cease talking about her "broken nose" suit for slander will be filed immediately.

## Volunteer Workmen Do Park Beautification Work

Picks and Shovels Fly as 35 Men Excavate Lily Pool; Women Serve Picnic Dinner to Workers Who Donate Time.

Continued From Page One.

Plans for the eventual beautification of McKinley park near the Harding Memorial took the first actual step forward yesterday as a corps of 35 interested citizens of the community surrounding the park labored for nearly three hours removing earth from the site of a proposed lily pool.

The force of men was augmented by a group of about 10 interested women who served a picnic supper in the park during a lull in the activities of the digging crew.

The pool started yesterday in near the center of the park and will have a total area of nearly 1,000 square feet. It will be approximately 18 inches deep.

Commission Expects Cooperation Dr. E. R. Mann, president of the city park commission is in charge of the construction of the beautification projects in the parks. It is the aim of the park commission, Dr. Mann said yesterday, to beautify all the parks of the city but it will be necessary to gain the cooperation of citizens to do so. McKinley park has come in for a large share of attention during the summer although the others have not been neglected. The baseball diamond built at McKinley park has been the largest item of construction during the summer. Dr. Mann said construction of the diamond cost the commission more than originally expected but it is believed that certain groups of the city interested in athletics will help to defray building expenses.

Residents of the community surrounding McKinley park have submitted their intention of cooperating with the park commission in an effort to make the south side park the most beautiful in the city. The park commission is anxious, however, to cooperate with any citizens of other sections of the city who wish to help beautify parks of the district in which they reside.

## 300 HEAR DISCUSSION ON GAS RATE FIGHT

Tharpe Says Ohio Fuel Gas Co. Losing Money on Investment Here.

Continued From Page 1

fight against increased rates, presented what he maintained was the true facts of the case, although nearly in direct contrast to those offered by Tharpe.

Disputing the contention of Tharpe that the gas company could not make a fair return on its investment on the present rate, Mouser charged the sole reason for its inability to make money was the prying of capital.

He also charged the watering of stock to the company a higher valuation than it is fairly entitled to. He also claimed that the proposed increase in rates would net the gas company nearly \$90,000 a year rather than the \$60,000 claimed by Tharpe.

Warner charged "sandbagging," Attorney Fred W. Warner, who is believed to be representing certain business interests among various prominent citizens of the community, charged the gas company with trying to "sandbag" the public into signing for a rate that would amount to a virtual agreement between the public and the gas company allowing the latter to rob the gas consumer.

Attorney John H. Clark continued the arguments for the citizens by asserting that the gas company was trying to keep the public into believing that the present gas facilities were not sufficient to adequately supply Marion while at the same time it is going ahead with plans to divert part of the present supply to give California gas. He asked that the company be forced by law to provide for an adequate supply of gas for Marion consumers this winter, regardless of the outcome of the fight for higher rates.

Intimidation charged, Ralph K. Ruppert, speaking in behalf of the labor interests in the community, contended in his argument that the gas company had resorted to intimidation in its attempt to gain the support of the unemployed element in Marion.

H. P. Walker, president of the Fairfield Mfg. Co. and Wilbur Jacoby, local real estate man, both attacked arguments of the gas company as being little other than facts distorted in such a manner as to give a misleading conception of the case.

Walker presented what he said were facts showing that the gas company was not being forced to pay more for gas now than it was several years ago.

C. E. Merkel, president of city council, speaking as a gas user and citizen said that insofar as he was concerned the rate case would be settled by the utilities commission. He said that he believed there was nothing to be gained by trying further to effect a settlement through the local government channels.

## Man Gets Break When Woman Changes Mind

By The Associated Press KANSAS CITY, Aug. 21—R. N. Ford is among those who profess to see naught but virtue in this business of women changing their minds.

Ford's car was crowded into a curb last night by one containing a man and woman.

"That's the man that hit me, dear," the woman exclaimed.

Her companion immediately organized himself into a boarding party and came over the side with a revolver in his hand.

Ford gazed into the open-faced artillery and assumed, he said, what he deemed the proper expression for a man who would never stoop to strike a strange woman.

Suddenly the woman exclaimed again: "Oh, no, honey, that's not him."

## FIRE SWEEPS GALION STORE

Damages \$21,000 Stock of Clothing and Dry Goods; Building Saved.

Special To The Star  
GALION, Aug. 21—Heavy damage done to stock of the Morgan Bros. Inc., in a fire that broke out at the company store on Harding Ave. E. shortly before 10 p. m. yesterday.

Manager Morganster said today the greater part of the \$21,000 stock of men's and women's clothing and dry goods was destroyed or badly damaged.

An electric iron believed left connected after the store was closed yesterday is blamed for causing the fire, loss is covered by insurance.

Fire Chief Harry Kirk today said comparatively little damage was done to the store room, although the rear end of the store, where the fire originated, was partially burned.

Two girls walking along the street in front of the store discovered the flames and spread the alarm. Chief Kirk estimated the fire had been under way half an hour when discovered.

## Galion Lodge Plans Outing at Dice Farm

GALION, Aug. 21—Galion Lodge No. 1191, Benevolent and Protective Order of Elks, will hold a stag picnic Wednesday, Aug. 27, at the Dice farm west of Galion. The picnic as planned will begin at noon. Entertainment and special refreshments are planned for afternoon and evening. Four three-pound boxing bouts have also been planned among the day's activities.

Members of the First Lutheran Ladies' Guild met at 3 p. m. yesterday at Hesse park. A social hour preceded a picnic supper which was served in the evening. Nineteen members of the Guild were present.

The Junior Mission Band of the Peace Lutheran church held an all-day picnic yesterday at Secaucus park. Members met in the morning and motored to the park. Amusements of the park were enjoyed and a picnic dinner served.

## If You Need Cod Liver Oil

These Sugar-Coated Tablets are Your Escape from Its Fishy Taste and Odor

Does anything surprise you in this modern world? Think of turning the by-products of coal into pleasing perfumes, billiard balls, or beads for your daughter's neck. And think of the miracle that gives you all the benefits of cod liver oil without the taste.

The flesh, strength and energy increasing elements (vitamins) are now taken from pure Norwegian cod liver oil and put into sugar-coated tablets free from fishy taste, odor or oiliness. This wonderful discovery—McCo's Cod Liver Oil Extract Tablets, sold by all druggists—is magically turning pale, puny, delicate, underweight youngsters into rugged, robust, rosy-cheeked boys and girls. McCo's are also doing wonders for weak, run-down underweight men and women.

The smallest child can easily take McCo's as they taste like candy. 7-year-old Annelia Biggs of Irvington, N. J., was so pleased with McCo's that she herself wrote—"Last Fall I took them (McCo's) and stopped after I gained 5 pounds." As proof of their safety and benefit—McCo's have been tested and approved by the Good Housekeeping Bureau of Foods, Sanitation and Health. And Honney & Cooper guarantees them—80 tablets 60 cents—Adv.

Members follow: L. H. Kreiter to Feb. 1, 1931; R. O. Morgan to Feb. 1, 1932; J. S. Boyd to Feb. 1, 1933; Clarence Myers to Feb. 1, 1934. Morgan and Boyd are Republicans; Kreiter and Myers are Democrats.

## WICKERSHAM SPEAKS BEFORE COMMISSION

Says Attitude of American is Not Law-Abiding; Individual Concern.

By The Associated Press  
CHICAGO, Aug. 21—George W. Wickersham, chairman of President Hoover's commission on law observance and enforcement, told members of the American Bar association yesterday that the general attitude of mind of the average American is not law-abiding but that the individual must accept and abide by the restraint imposed by law.

## English Admiral ON WRECKED CRAFT

Former Aid to King George Thought Lost in Yacht Crash.

POWELL, Cornwall, Eng., Aug. 21—Commodore Henry Douglas King, conservative member of parliament, brilliant soldier and one-time aide-de-camp to King George was believed to have met death with probably half a dozen others aboard the 22-ton motor yacht "Islander" wrecked here in the night.

One woman, two children and a well known naval surgeon were believed aboard the vessel when it went to pieces after going on the rocks of the Cornwall coast at Lantivet bay. Doubtless knowledge of the makeup of the yachting party still was lacking this evening. That Commodore King changed his mind about inviting some fellow members of parliament was believed, since all on board the "Islander" were lost, according to lifebuoys who battled desperately in darkness under the 265-foot cliff where the tragedy of the English channel was enacted, in efforts to rescue some of those aboard.

When a lifeline finally was shot across the yacht there seemed nobody on the craft to catch it. Daring coast-guardsmen, lowered from the brink of the rock, said they heard a woman scream in a cabin. The guardmen could not contrive to get aboard the distressed vessel.

## Mob in Textile Town Attacks Union Organizers

BESSEMER CITY, N. C., Aug. 21—Violence flared anew in this strike-torn textile area today when a mob kidnapped and fogged Walter Wilson of Asheville, southern representative for the American Civil Liberties union, and Albert Herder and W. G. Binkley, organizers for the National Textile Workers' union.

The attack was reported by Binkley and Herder, who declared they had been left on the outskirts of the city after being beaten by a crowd of men. Wilson, they said, was "badly beaten" and remained in the hands of the mob.

## Secrecy Veils Plans for World Flight

By International News Service  
WASHINGTON, Aug. 21—Roger C. Williams and Ted Lundgren veiled their plans for a forthcoming flight to Europe with such secrecy today that they even denied their identity to reporters at the state department.

Before they held a secret conference with R. H. Barklow, chief of the department's protocol division, they conferred with Clarence M. Young, assistant secretary of commerce for aeronautics.

There they did not bind Young with the secrecy they requested from Barklow and Young announced their presence here to ask the state department to seek permission of general foreign countries, especially England, for them to fly over their territory.

## HONEY RIVER NEARLY DRY

Rubber Company To Halt Production Because of Water Shortage.

BUCHIRUS, Aug. 21—The Pennsylvania railroad today began hauling water from Sandusky Bay to Attica, a small village north of here, which is almost completely without water.

The bulk of the water is to be reserved for fire protection.

The continued drought has resulted in the drying up of Honey river from which the village draws water for drinking and fire-fighting purposes.

A shipment of 400,000 gallons arrived today and was poured directly into the stream.

Officials of the Perfection Rubber Co. at Attica have announced that the plant will be forced to close because of lack of water.

## WORK ON NEW WAR INVENTION CLOSING

Machine Designed To Direct Anti-Aircraft Fire During War.

By International News Service  
WASHINGTON, Aug. 21—Army technicians are putting the finishing touches on a complicated machine which will so direct anti-aircraft fire that the range and direction at which the guns must be pointed will be determined automatically, and the projectiles and the enemy plane will reach the same point in space at the same instant it was learned today.

Tests of three of the new fire directors began today at the Aberdeen, Md., proving ground, and will continue until November 1. Two of the machines were built in Europe in accordance with U. S. army specifications and the third was produced domestically.

The army has been endeavoring to evolve a fool-proof range director for anti-aircraft guns since 1921. Each year, tests have been made, faults corrected and important changes and improvements undertaken. Ordinarily officers were confident that the 1930 models about to be tried will prove far more efficient than any of the previous types, and while they refused to make a final prediction, it was apparent they believe their goal is in sight.

Captain C. H. Morgan of the ordnance department's fire control design section, who is in charge of the work, emphasized the difficulties of the problem. At ordinary firing ranges of four to five miles, he pointed out, an airplane would travel 1,500 feet during the interval of time corresponding to flight of the projectile.

## GETS NO AID

Captain of Black Yacht Says Coast Guard Boats No Help.

NEW YORK, Aug. 21—Testifying today at the investigation by the United States steamboat service into the disappearance of Van Lear Black, newspaper publisher, internationally famous aviator and financier of Baltimore, who fell from his yacht, Sabot, Monday night 18 miles south of Ambrose Channel, Captain John N. Kelley, skipper of the yacht, declared that after Black toppled off the rail into the rolling sea a coast guard boat ignored his (Kelley's) request to whistle and aid in the search.

"While we were searching for Mr. Black flashlights were put on us three times," Kelley said. "I supposed they were coast guard boats. Finally one of the coast guard vessels hailed us and asked me what I was doing with my searchlight. I told them I was looking for a man overboard and asked them if they would blow four whistles to summon assistance. But they simply snapped off their lights and faded out of the picture."

The drowning of Black has been held "purely accidental."

## Columbus Railroader Wounded in Accident

By International News Service  
COLUMBUS, O., Aug. 21—Charles Saikas, 60-year-old railroad employee, was shot and probably fatally wounded in the shops of the Norfolk & Western railroad here today, by John Jones, police said.

Jones was arrested and is being held pending the result of the shooting. Saikas was reported to be in a critical condition at a local hospital.

The shooting was believed to be accidental. Police said Jones was showing the weapon to fellow workmen when it was accidentally discharged.

By The Associated Press  
BOWELL, N. H., Aug. 21—With her sharp eyes she led out to a fraction more than 12 minutes. Mrs. Gladys O'Donnell was ready today to lead the women's national air race on the 400-mile Amarillo, Tex., leg of the Long Beach to Chicago race.

## Local Man Fires Famous Cannon During Centennial

By Brush-Moore Leased Wire  
WINEBURG, O., Aug. 21—When old "Katie Kopf," Wineburg's famous cannon which was lost in a hedge row for 50 years, boomed forth a welcome to the village centennial Thursday morning the fuse was touched off by Edwin L. Smith of Marion.

The last man to fire the veteran before it was lost soon after the Civil war.

Mr. Smith is president of the Wineburg reunion association and grandson of Christian Smith, one of the founders of the town.

The old cannon withstood the strain of the shot perfectly and its voice echoed over the Holmes county hills so effectively that it brought to the minds of old residents memories of the days when it was used on all occasions.

It is said, in fact, that the cannon was fired so often and so loudly that certain residents of the village plotted to have it "lost" and it remained hidden until a farmer plowed it up this spring.

## ANNOUNCE MERGER OF FOUR COMPANIES

Well-Known Aviation Firms Form Transcontinental Air Service.

By International News Service  
PITTSBURGH, Pa., Aug. 21—Merging of four aviation companies into a \$4,000,000 corporation to operate a transcontinental air mail and passenger service was announced here today.

The four companies are the Pittsburgh Airways, the United States Airways, the Ohio Air Transport Co., and the Southwest Air Express Co. The United Aviation Co. will be the name of the corporation.

Air service from New York to Los Angeles, via Pittsburgh, Columbus, Indianapolis, St. Louis, Kansas City, Albuquerque and Winslow is to be started, the announcement stated.

Oliver M. Kaufmann, chairman of the board of Pittsburgh Airways, and J. D. Condon, president, will become vice-president and treasurer, respectively, of the new organization. Paul Wick of Youngstown, president of the Ohio Air Transport, is to be the new president, and Earl Halliburton, head of the Southwest Air Express, and W. A. Lelton, head of the United States Airways, will be named vice-presidents.

Selter, Cincinnati, president of the Ohio Bankers' Association; and H. C. Bransower, director of the extension service, college of agriculture, Ohio State university.

The committee, which will conduct a survey to determine areas in which relief is needed, will meet in Columbus, Sept. 1.

## TAX CUT UNLIKELY

Treasury Department Holds Little Hope for 1931 Reduction.

By International News Service  
WASHINGTON, Aug. 21—Hope for a continuation of the one per cent tax reduction on incomes earned in 1930 virtually has been abandoned by the treasury department. It was learned from high officials today.

The treasury, however, has not yet considered the possibility of increasing rates over those contained in the 1928 revenue act. It appeared that every effort would be made to maintain the 1928 levels on the belief that business will pick up during the late fall and winter and will move back to normal in 1931, thus assuring increasing revenues for the government next year.

## Three Taken in Second Day of Huge Cleanup

By International News Service  
LIMA, O., Aug. 21—Two men and a woman, who are wanted by United States court officials at Columbus on charges of conspiracy to violate the federal prohibition laws, were arrested here today as a huge state-federal dry cleanup entered its second day of activity.

Those who were taken into custody are Richard Lovey, 32, Sadie Lovey, 32, both of Lima, and H. L. Rose, 42, of Cleveland. They are to be taken to Toledo.

More than a dozen federal agents are working here in connection with a force of state dry officers. The drive is under the direction of United States Marshall S. B. Overmyer.

## NOTED SHEEP MAN CLAIMED

Dwight Lincoln Victim of Heart Attack at Home in Marysville.

Special To The Star  
MARYSVILLE, Aug. 21—Death claimed Dwight Lincoln, 58, for 30 years national secretary of the American Rambouillet Sheep Breeders' association, at his home on West Fifth street yesterday afternoon. Death was caused by heart trouble, which he had suffered several years.

He came to Marysville 30 years ago, making this village famous for its Rambouillet sheep, which he has shipped to all corners of the world. Several carloads were shipped to South America by Mr. Lincoln, while thousands of head were sent to Russia to augment their flocks.

He was born Dec. 23, 1871 at Fountain park near Woodstock. In 1900 he married Miss Annie Howard, who survives. He also leaves his mother, Mrs. Walter Lincoln, two sisters, Ella Lincoln, Mrs. Bertha Lyons, and brothers, Edward and Walter of Milford Center.

Funeral arrangements have not been completed.

## AUTOMOBILE THEFTS THOUGHT CLEANED UP

Three Youths Arrested by Dayton Detectives in Johnsville.

By The Associated Press  
DAYTON, O., Aug. 21—Theft of automobiles in many cities in central states are believed to have been cleaned up with the arrest last night of three youths registering as Carl Waldrop alias Cecil K. Benton, 20, of Cheyenne, Wyo.; Oral D. Norrie, 18, Indianapolis, and Harry Schultz, 18, of Logan county, Ohio.

The youths, arresting detectives stated, have confessed having stolen about fifty machines within the past few months, driving them until the gasoline supply was exhausted, after which they would be abandoned and another taken.

They were arrested by detectives who chased them to Johnsville, 10 miles west of here. When the youths were forced to abandon their machines they were taken into custody.

## FORMER LOCAL MAN KILLED IN ACCIDENT

**Charles McPheters, 47, Dies at Grand Rapids, Mich., When Scaffolding Falls.**

Charles McPheters, 47, former Marion man, was instantly killed Tuesday at Grand Rapids, Mich., when a scaffolding on which he was working collapsed.

McPheters, according to information received by relatives here, was working in a bank building in the Michigan city. He was a painter and interior decorator by trade.

Until five years ago he was a resident of Marion. He is survived by the widow, seven children, five brothers and one sister.

Funeral services and burial will be held in Grand Rapids, Friday.

## RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called **Rehall Orderlies** has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Chew a Rehall Orderly at night. Next day bright. Get 24 for 25c today at the nearest Rehall Drug Store. O. G. Ungerleht.—Adv.

## Pilot Claims New Record for Landings

By The Associated Press  
AKRON, O., Aug. 21.—Something new in airplane records was claimed today by Pilot William Hudson.

Hudson made between 500 and 700 landings and takeoffs between dusk and dawn yesterday, not as a stunt, he explained, but to test a new roller-bearing airwheel. He started out at 4:30 a. m. with 1,000 hops as his goal, but fell short of the mark.

Except for a short rest period in the afternoon when he was relieved by Pilot Clarence Bell, Hudson was at the controls all the time. He made all sorts of landings, fast and slow, easy and hard, and first with the stress on one wheel and then on the other to make the test complete.

## Bavarian Minister, Cabinet Leave Posts

By International News Service  
MUNICH, Bavaria, Aug. 21.—An attempt to emulate the Berlin government in enforcing a strongly opposed tax measure today had brought about the resignation of the Bavarian Premier Dr. Heinrich Held and the entire cabinet.

Faced with an annual \$5,000,000 deficit, Premier Held strove vainly for weeks to force a tax on cattle slaughtering through the diet, but Socialists were able to muster overwhelming support in repeated defeat of his efforts. Finally, he invoked a constitutional clause similar to the famed article 48 of the Reich's constitution, thereby promulgating the measure.

His resignation therefore came unexpectedly.

## SARAH E. FOLLIETT DIES AT HOME HERE

Death Follows Illness of Two Weeks; Funeral Services Saturday at 2 P. M.

Mrs. Sarah E. Folliett, widow of Leander P. Folliett, died today at 2 a. m. of complications at her home, 512 Mound street. She had been ill two weeks.

Funeral services will be held Saturday at 2 p. m. at the home, and at 1:30 p. m. at Grace Evangelical church. Rev. Earl L. Holliday will officiate and interment will be made in Marion cemetery.

Mrs. Folliett was born Oct. 13, 1850, in Westport, Conn., and was the daughter of William H. and Elizabeth Mills, natives of Connecticut. Her marriage to Mr. Folliett took place 60 years ago in Westport. Mrs. Folliett was a member of the Free Will Baptist church.

Surviving are one daughter, Mrs. C. A. Bolin of 512 Mound street, one brother, Henry Mills of Westport, Conn., and two sisters, Mrs. Ruth Osborne of Stratford, Conn., and Mrs. Millard Brown of Fairfield, Conn.

# HARDING GRIDDERS START WORK SOON

## FIVE LETTER-MEN TO BE BACK FOR TOUGH SCHEDULE OF GAMES

Opening Practice Likely To Be Called for Sept. 2 by Mentor.

BY BOB ELLIOTT  
Old man baseball will find out of the picture before long and in will pop Mr. Football all ready for another season. Harding High's grid-iron hopefuls, facing one of the toughest schedules in the history of the school, will don their togs for the first time probably on Sept. 2 or thereabouts according to an announcement made yesterday afternoon by Dewey Bolyer, head football coach of the Red and Black school. Bolyer says the practice started as early as Sept. 2, he'll have exactly 18 days in which to get a team worked together for the opening clash with Toledo Central there on Sept. 21. This game will be one of the hardest engagements on the local circuit and a Harding victory seems a little unexpected at least until Dewey can get his material lined up and see what's what.

**Five Veterans Back**  
Five letter-men greet the coach this year as he starts practice although some fairly promising material is coming up from the ranks of the substitutes of last year. Junior Clay, all-league linebacker, who Dewey will probably work at a tackle this year, is one of the most welcome returns to the gridiron. Then there are Morgan, flashy young halfback, Wright, another backfield man or center, Bush and Bob Smith, both ends.

Through necessity Bolyer may see fit to make a tackle out of Smith and a backfield candidate out of Bush, both fairly strapping youngsters. Wright will either be used at the important place position or at a half. Among the most promising of the boys coming up from the substitute ranks are Houseworth, Slann, Newby, Alpersch, Pickler, Williams, Hunt, Hanson, Reed, Augenstein, Clark, Lindsey, Jacoby and Eckenbarger. Candidates for all the vacant positions loom up in this group and Bolyer may find himself not so bad off after all when he starts to line up the most promising.

The North Central league schedule gets under way on Sept. 27 when Gallon, a traditional foe of the Red and Black, travels here for the annual encounter between the two teams. The next Saturday Oct. 4 is open and then come four straight weeks of tough games, three of which are N. C. O. Hills and the other a non-league battle with Findlay, always tough.

**Close With Tough One**  
The N. C. O. games are with Ashland on Oct. 11, Bucyrus on Oct. 25, and Mansfield on Nov. 1. Saturday, Nov. 8, is another open date and then comes the Shelby clash here on Nov. 15. The locals close their season with probably the toughest game of them all with Springfield there on Nov. 22.

The schedule of eight games calls for the Red and Black to make four trips away from home and four teams to come here. Three of the five N. C. O. games are carded for the Fairgrounds with the Mansfield and Bucyrus tilts scheduled for away from home on successive Saturdays.

When asked for a statement concerning his hopes for a successful season Dewey said that at present the team looks as if it will be light and a light team vs. a back-breaking schedule. Well, you know what should happen.

## SPORT RAMBLINGS

—BY BOB ELLIOTT

IT'll just be likely that after a whole summer of drought and absolutely no rain it'll start to pour down now, and wreck plans for the Little World series scheduled to get under way tomorrow at 6 p. m. at Lincoln Park. At the date of this writing it looks rather doubtful if any of the postponed industrial league games will be played this evening but then that doesn't make a whole lot of difference anyway. Just so old Jap Mulvius goes far away before tomorrow at 6 o'clock we'll be happy and at Lincoln Park for the tee-off of the fall classic that everybody's been waiting for. Somebody suggested that we ought to pick Lee Street to win so Calvary couldn't lose. Oscar says that isn't nice.

**Joe Banaah, one of the principals in the semi-final bout on the Labor Day wrestling card at Crystal Lake, failed to hold out last night at Columbus with the light heavy champion, Hugh Nichols to lift the crown from the latter's manly brow. Both had a fall apiece and were tearing things up in general when Joe butted Hugh in the head with his own head and both were knocked out. But it so happened that Joe fell first with Hugh on top so Mr. Nichols retained his title. If Joe's head had been just a little harder he might have been champion today. Then they say there's no use for an ivory skull.**

**MEMBERS of the recreation ball commission are looking for all attendance records at Little World Series to be cracked wide open during the 1936 games. Never before have such drawing teams played in the series. Lee Street and Calvary, the two church league champions, are probably the two best supported teams in the city. Eric Roundhouse is without a doubt the most strongly supported of any industrial loop champion in many years. When that bunch of Roundhouse rooters get started it sounds like an Ohio State-Michigan football game. Then the Kappas have their backing although hardly as strong as the other three contenders. With that pitching staff they don't need backing.**

## PAYNE CARRIES OFF SHOOT HONORS AGAIN

Bangs 199 Out of 200 To Win Team Championship for Ohio.

By The Associated Press  
YANDALIA, O., Aug. 21—Gus Payne of Cleveland has walked off with a lion's share of the honors in the Grand American handtrap shoot tournament for the second successive day.

Payne, shooting last and facing the necessity of a high score, broke 199 out of a possible 200 targets yesterday to clinch the team championship of states for the Ohio No. 2 squad. Payne's work brought the Ohio team's total to 677 targets out of a possible 1,000. Four better than the Texas No. 1 squad.

Charley Bogert of Sandusky also broke 199 targets for the winning five. The other members were Mark Toolman, Hicksville, who scored 197; Pearl Crumston, Portsmouth, 190; and Howard Sullivan, Cincinnati, 192.

## REDS SINK FLATBUSH FUMBLERS TWICE BY CLOSE COUNT OF 2-1

A's Practically Cinch American Pennant as Grove Wins 21st.

BY HUGH S. FULLERTON, JR.  
Associated Press Sports Writer  
While the National League pennant race goes on without getting very near to a decision, the Philadelphia fans are about ready to hear the news that the Athletics have clinched the American league title for another year.

The Senators continued their chase yesterday by trouncing the St. Louis Browns, 14 to 4, scoring a 10 run burst in the fifth inning which went a long way toward avenging the indignities suffered in St. Louis. But Washington's 18th assault brought nothing. While the Athletics were giving Bob Grove his usual backing, Grove did some ragged hurling as he won his eighth straight game and his 21st victory of the season, but he was presented with a seven run lead before the "Tigers" started to score.

The leaders of the National League were joined in grief yesterday as all three succumbed to their rivals of lower rank in the standing. But Brooklyn was the only club which lost ground. The Robins moved into Cincinnati for a double header with the humble Reds. But much to their surprise, Cincinnati pitching proved better than Brooklyn in two close duels, both being decided by 2 to 1 scores.

**Frey Cops 2-1**  
Young Benny Frey gave Brooklyn just five hits as he bested Adolfo Luque in the first clash while Ray Kulp was equally successful against Ray Phelps in the second although he allowed twice the number of hits. Red Lucas brought him success by driving in the deciding tally with a pinch double in the ninth.

The last-place Phillies evidently were destined to win their twice-tied game with the champion Chicago Cubs although it required three days of effort to give them a 10 to 8 decision. The game, which started in an eleven inning tie in the second half of Saturday's double header and failed to come to a decision in a 16 inning second clash Tuesday, finally was played off yesterday and Phillies batters were triumphant.

A single homer and a wild pitch by Fred Fitzsimmons were about enough for the St. Louis Cardinals as they downed the New York Giants, 5 to 4. Pinch batsman George Fisher made a four base clout for three runs while the wild leave by the Giant pitcher allowed the tying run to score. Out of the pennant race, Pittsburgh gained a triumph of its own by shutting out the Boston Braves, 5 to 0, and passing the 500 mark for the first time since June 4.

## SHOULD TAKE IT

Shirts Offered \$30,000 To Forsake Ball for Ring.

By International News Service  
CHICAGO, Aug. 21—C. Arthur (Whitman) Shires, at present with the Washington Senators, has been offered a guarantee of \$50,000 if he will forsake baseball for the boxing ring, it was reported here today. The offer is said to have come from Miquo Malloy, Chicago fight promoter. The pugilistic first baseman enjoyed a brief but spectacular career last winter which was cut short on the advice of Commissioner K. M. Landis.

## KEEPS PROMISE

Singer Signs To Meet Jimmy McLarnin on Sept. 11.

By International News Service  
NEW YORK, Aug. 21—Al Singer's promise that as lightweight champion he would fight and not talk was fulfilled today. The title-holder signed for a 10-round bout with Jimmy McLarnin in the Yankee stadium on Sept. 11 and for a title fight against Tony Canzoneri of New York in the garden on Nov. 14.

Singer will start training for his bout with the Vancouver spider next Monday at Delaware Water Gap, Pa. McLarnin is due here from the coast Saturday.

## Epworth No. 1 Wallops Forest Lawn Nine, 4-1

In the only recreation game played last evening Epworth No. 1 won from Forest Lawn, 4 to 1 at Lincoln park. Zig Snyder limited the losers to four hits while the winners collected six off Kellogg. The Methodists made two errors and the losers three.

Zig pitched a nice game whiffing four men while his mound opponent was setting down a duo of the winners via the three-strike route. The winners scored once in the first and three times in the fourth while Forest Lawn counted in the second frame.

## Local Pacer Is Victor in County Fair Races

Peter Chan, local pacer, was driven to victory in the first division of the 2:24 pace at the Seneca county fair races at Tiffin yesterday by her owner, J. J. Hineman. The Marion horse finished second to Worthing Guy in the first heat and second to Anna Guy in the second and then came back to cop the third and extra heat. The times for the local pacer were 2:12½ in the third heat and 2:15 in the fourth trip. Alice Wilson took the second division of the 2:24 pace in three straight heats while Clara Shuff won the first two heats of the 2:24 trot.

A metal support has been patented to prevent small ink bottles being upset.

## NEW COAST PHENOM PLAYS ENGLISH ACE

Women's National Tourney Advances into Quarter-Finals with Miss Nuthall Playing Fine Tennis.

FOREST HILLS, N. Y., Aug. 21—A wee slip of a girl, unknown outside her native golden state two months ago, steps out on the No. 1 stadium court at Forest Hills this afternoon to do battle with the mighty Betty Nuthall in the quarter-final round of the women's national tennis championships.

And although she is unranked and unseeded, this newest of coast phenoms, Doty Weissel, is conceded a fighting chance of upsetting the British standard-bearer.

Miss Weissel's victory yesterday over Sarah Palfrey, Wightman cup star and fourth ranking player of the country, came as a distinct shock to the spectators who had been counting on the 17-year-old Brookline girl's meeting Betty Nuthall and who were speculating in advance on "Sally's" chances against the English star.

## Just Another Crucial Series in Windy City

CHICAGO, Aug. 21—All roads led to Wrigley Field today where the league-leading Cubs were to give battle to the New York Giants in the first of a four-game series.

The Giants, now in second place, three games back of the Cubs, aim to make a supreme bid for the league lead in this series and fast baseball is anticipated in the next four days.

Approximately 42,000 were expected to attend today's game between the traditional rivals. Most of the box seats had been sold in advance.

Pitching selections announced for the game today were Sheriff Blake for the Cubs and Bill Walker for the Giants. Walker is in great form at present and was expected to be a tough customer for the home team.

At present the New Yorkers have a 0-3 advantage over the Bruins. The teams have played 15 contests, the Giants taking nine, while dropping six to the Cubs.

The McGraw team has been especially effective playing here, having won five of the seven tilts on the Bruins' home grounds. In the Polo Grounds, the home of the Giants, the Cubs have held the Gothamites even, each team having won four of the eight games played.

## YESTERDAY'S STARS

Lefty Grove, Athletics—Won eighth straight and twenty-first game of season as Athletics defeated Tigers.

Virgil Davis, Chuck Klein, Frank O'Doul and Don Hurst, Phillies—Drove out five home runs, Davis getting two, to defeat Cubs.

George Fisher, Cardinals—Home run with two on base helped to down Giants.

Ray Kremer, Pirates—Pitched seventeenth victory of season, holding Braves to five hits.

Red Lucas, Reds—Pinch double in ninth drove in run that defeated Robins in second game of doubleheader.

Dorothy and Betty will provide the gallery with a strange contrast, not only in their physical make-up, but also in their games. The coast girl weighs but 101 pounds and stands only 5 feet 4 inches in height. Betty, on the other hand, is one of the most robust of the seekers after Helen Wills' laurels.

The international feature is not the only quarter-final match which finds a feminine David striving with her Goliath. In the topmost bracket, Midge Morrill encounters five-foot Ethel Burkhardt.

The Baroness Levi, always an interesting performer, will tackle her second straight ranking opponent when she opposes Penelope Anderson of Richmond, Va., No. 12 in the national listing.

Mrs. Lawrence Harper has a "aer-up" in Mary Greer. Mrs. Harper has never lost to the girl who ranks only one place beneath her, and there's no reason to believe she will change her tactics today.

## FORTY PRESENT FOR MARIETTA REGATTA

Lamb Delegation of Florida To Make Strong Bid for Trophy.

By The Associated Press.

MARIETTA, O., Aug. 21—More than forty boatsmen were here today for the third annual mid-east regatta. States represented were Wisconsin, Illinois, Indiana, Michigan, New Jersey, Florida, West Virginia and Ohio.

Florida had the one of the largest delegations with W. B. Lamb, Jacksonville, bringing a dozen boats and a corps of drivers. They expected to make a determined bid for the Charles G. Dawes trophy won in 1928 by Den Kohler of Gary, Ind., and last year by George Martin, South Bend, Ind.

There will be nine class events, including the Dawes Cup race which will close the Regatta Saturday.

## HAGEN'S BRILLIANT 67 LEADS QUALIFIERS IN WESTERN OPEN PLAY

However, "Haig" Will Face Stiff Battle in 72-Hole Medal Play.

By The Associated Press.

ORION, Mich., Aug. 21—"The Haig" isn't through yet. Suddenly reversing the form that threatened to topple him once and for all from his pedestal as one of golf's greatest stylists, Walter Hagen once more stood out today as a one big threat in one of the favorite tournaments of his long career, the western open championship.

A record-breaking 67, five strokes under par, in the 18 hole qualifying round over the championship Indian Wood country club course yesterday and a 68 in the practice test, the day before, was Hagen's signal of his promised comeback.

Hagen appeared the Hagen of old. He smacked his shots with his old time accuracy, snared an eagle and four birdies on his triumphant round and lost only one decision to par.

Withall, Hagen faced spirited competition and a big fight from a brilliant field as the big push-off in the 72 holes medal drive for the championship opened today. Chief among his rivals were Tommy Armour, the defending champion from Detroit; Horton Smith, and "Wild Bill" McWhorter, who did not have to qualify yesterday because of their low scores in last year's championship. Then there was Johnny Farrell, the former national open champion from New York who finished one shot behind Hagen in yesterday's 18 hole qualifying test with a brilliant 68; Al Watrous, Detroit pro, who scored a 71 and the two Espinosa brothers, Al and Abe, from Chicago, both good campaigners in medal play.

So many was the qualifying space yesterday that 121 made the grade for the championship tussle with 81 or better. Thirty-two automatically qualified because of last year's low scores.

There will be nine class events, including the Dawes Cup race which will close the Regatta Saturday.

PRISONER ENDS LIFE IN SOLITARY CELL

Akron Man Hangs Self with Overalls in Ohio State Penitentiary. By International News Service COLUMBUS, O., Aug. 21—James Raymond, Summit county prisoner, committed suicide in his "solitary confinement" cell at Ohio State penitentiary here today. Raymond hung himself with a pair of suspenders which he tore from his overalls. The prisoner had been placed in the "solitary" cell late last night on his request. He told penitentiary officials that he "wanted to be alone."

HELPING HUSBAND BRINGS TROUBLE

Woman Lands in Jail After Trying to Smuggle Saw Blades to Hubby. By The Associated Press CLEVELAND, Aug. 21—Mrs. Mildred Bagnell, whose husband walked out of the county jail by trading liberties with another prisoner, was in the jail herself today facing a charge of assisting a prisoner to escape. Mrs. Bagnell's husband, John E. Bagnell, escaped July 5 when she paid the fine of another prisoner, William Mulvey, and Bagnell assumed Mulvey's identity. Bagnell, under indictment here for the burglary of a department store of \$600, was located in the Mahoning county jail, at Youngstown where he was held on another burglary charge. When Mrs. Bagnell attempted to effect another escape for her husband yesterday by carrying four hacksaw blades into the Mahoning jail in her nose, she was arrested and returned to Cleveland. Mulvey, who had worked off all but \$9 of a fine for being a suspicious person, will have to stay in jail until September of next year for helping in the escape by providing Bagnell with information that enabled the latter to pass as Mulvey.

CAR HITS BOY, PONY

By The Associated Press CHARDON, O., Aug. 21—Harold Carlson, son of Arthur D. Carlson, president of the Chardon Chamber of Commerce, was seriously hurt yesterday when an automobile driven by Mrs. Beatrice Stuckert crashed into a pony he was riding. The pony was killed.

## Canadian Fair Will Be Heard Over WEAF Net

A RADIO picture of the formal opening of the world's largest annual exposition will be presented to listeners Friday at 1:30 p. m. when the Columbia network every Friday night between Labor Day and the first week in December, when the All America Team for 1937 will be selected at Los Angeles.

At least two members of the board will take part in the 15 minute interview to be conducted each week by Christy Walsh, founder and member of the All America board.

Fifteen weeks of unparalleled activity will keep the All America board going top speed during the picnic season. The official blow-off is scheduled for Sept. 2, when the board convenes in New York City with all members at the microphone.

Pop Warner of Stanford university is making the longest journey to attend this meeting: Bill Alexander is coming from Atlanta, Knute Rockne from South Bend and Ted Jones from nearby New Haven. During the same week, Friday, Sept. 5, Rockne, assisted by Walsh, will inaugurate the first of the interview series set for every Friday night. Rockne, the wildest man in football, and beyond football, will do his stuff through the WJZ network Friday at 4 p. m.

A medley of folk songs and dances illustrating the abandon of gypsy music, will be featured by Emory Deutsch and his Columbia orchestra during their program Thursday at 9 p. m. over WABO and stations of the Columbia Broadcasting chain.

One of the many reconciliations between the white settlers and the Indians which took place in western New York will be broadcast as a dramatized playlet in the Niagara-Hudson program over the WEAF network Thursday at 6:30 p. m.

## FAMOUS COACHES TO GIVE TALKS

A big, new treat for gridiron fans is going on the air during the coming football season. Members of the All American Board of Football will speak over the Columbia network every Friday night between Labor Day and the first week in December, when the All America Team for 1937 will be selected at Los Angeles.

At least two members of the board will take part in the 15 minute interview to be conducted each week by Christy Walsh, founder and member of the All America board.

## Assistant Labor Head Billed for Forum Program

WILLIAM WALTER HUSBAND, assistant secretary of labor, will address the National Radio Forum, arranged by the Washington Star, and broadcast over the coast-to-coast network of the Columbia Broadcasting System Thursday at 9:30 p. m.

Husband, who has been identified with immigration work for a century, will discuss "Immigration" on this occasion. What he has to say will be especially significant as the immigration laws of this country are scheduled for revision at the next regular session of Congress.

The assistant labor head is a native of Vermont and in early life was a newspaper man in that state. He was appointed to his present position three years ago by President Coolidge. At that time he was U. S. Immigration Commissioner, which position he had held since 1921.

Hymns which allude to nature and focus thoughts upon the beauties which come from the Hand of God will be sung during the Midweek Hymn Sing over stations associated with the WEAF network Thursday at 6 p. m.

"Too, Too Divine," from "Garlick Gayettes" and "Highway to Heaven," from "Sailor, Behave!" frame the Muxwell House program to be broadcast over the WJZ network Thursday at 8:30 p. m.

A novel dance orchestra, under the direction of Nat Brasloff, will present a program of fast popular tunes for the discerning of WABO and the Columbia Broadcasting network Thursday at 10 p. m.

Oliver Smith, tenor, will sing Jahn's "L'Heure Exquise" during the broadcast of the Jack Frost's Melody Moments over stations associated with the WEAF network Thursday at 8:30 p. m.

David Crockett, pioneer American frontiersman who coined the saying, "Be sure you're right, then go ahead," will be re-entertained as guest of hour at the Biweekly Party broadcast through the WEAF network Thursday at 8 p. m.

What is called a "Fast Ticker" program has been arranged by the Columbia Broadcasting System for "Wall Street Night," which takes place at the Casino in Central Park, New York City, Thursday at 10:15 p. m.

Popular compositions familiarized through Broadway's musical comedies and talkies dominate the program which the Knox-Dunlap Orchestra will present over the WJZ network Thursday at 8 p. m.

Evon Evans, baritone, and Helen Nugent and Irene Hensley, contraltos, will be the soloists at the next meeting of the Ward's Tip Top Club Thursday at 6:30 p. m. over WABO and the Columbia Broadcasting network.

# WOMAN SHOT, HUSBAND HELD

"He Didn't Do It," She Tells Police as Probe Starts of Domestic Quarrel.

Robert Wilson of 247 Senate street, held in city prison today on a technical charge of investigation while his wife suffers a broken and lacerated arm as a result of what police say was a quarrel at their home yesterday shortly after 6 p. m.

Mrs. Wilson was shot through the arm with a .38-caliber revolver.

Mrs. Wilson told authorities she was not shot by her husband. She said the wound was self-inflicted but refused to disclose how it occurred, police say. Her condition is not serious.

Police are awaiting investigation of the case before filing charges against her husband. Chief of Police J. W. Thompson said today that there may be other charges filed against Wilson.

## CITY BRIEFS

**Thompson Rites**—Funeral services for David Thompson, 81, who died Monday at the home of his wife Mrs. Carl D. McClung of 993 North State street, were held today at 1:30 p. m. at the Schaffner-Queen funeral home on East Center street. Rev. S. E. Porter, pastor of Emmanuel Baptist church, officiated and interment was made in Brush Ridge cemetery.

**Operated On**—A. C. Stover of 326 Pearl street, admitted to city hospital last night, this morning underwent an operation. Others admitted to the hospital are Mrs. H. J. Jackson of 472 Forest street, abdominal operation Friday; Mrs. J. L. Kohler of 164 Sharpless court, tonsil operation, and Miss Laura Christman of Gallon, tonsil operation.

**Taken To Hospital**—Mrs. John Head of 502 Avondale avenue was moved to the city hospital last night in the C. E. Curtis Co. where she underwent a minor operation.

**Visiting Here**—Benedit, Rubach, O. M. C. student at St. Anthony-on-the-Hudson, Albany, N. Y., is spending a 10-day vacation with his parents, Mr. and Mrs. John Rubach at 293 Chestnut street.

## COURT NEWS

**Rizzo Sued**—Foreclosure of a mortgage on property in Jones' third addition is asked in a petition filed by the Marion Building Savings & Loan Co. yesterday in common pleas court against James Rizzo and others.

The petition claims the defendants owe \$4,252.75 on the mortgage.

William M. Harder is attorney for the plaintiff.

**License Issued**—A marriage license was issued yesterday in common pleas court to Frank Pennington, farmer of West Jefferson, and Juanita Sanderson of Davis street.

**Named Administrator**—Probate court has appointed A. M. Fetter as administrator of the estate of Fred Weissel.

**TWO CARS STOLEN**—Marion police were asked today by Mansfield authorities to be on the lookout for two automobiles reported in the latter city sometime last night. One of the stolen cars was a model A Ford carrying Illinois license 302-726. It was painted black. The second was a Dodge Eight sedan, maroon in color. It carried Ohio license 265-005.

MISS CATHERINE GROTE

"I was weak, run-down and tired all the time," said Miss Catherine Grote, 587 Burns avenue, Dayton. "My nerves were so bad, it was impossible for me to sleep and the least little thing excited me. Every morning found me tired. I tried many medicines and treatments but none of them helped me. I was at the end of my string when my attention was attracted to Konjola.

"I have taken six bottles of Konjola and that tired feeling is gone. Nervousness has completely disappeared. I now sleep well during the entire night and awaken in the morning rested and refreshed. Konjola proved a real blessing to me and, after my experience, there is no medicine in the world to compare with it."

Although Konjola works quickly, experience has taught that best results are secured when this master compound is taken regularly over a period of from six to eight weeks.

Konjola is sold in Marion, Ohio, at Stump & Sams Pharmacy and by all the best druggists in all towns throughout this entire section.—Adv.

# Don't Miss This!

Owing to the wonderful reception the "Home Folks" gave us, in our recent and successful opening of Marion's ONLY HOME OWNED AND OPERATED ONE-STOP SERVICE STATION, we have arranged another treat for you. Through the courtesy of the Kelly-Springfield Tire Company, we will exhibit, for two days only, a complete Automobile Tire Factory in miniature.

This miniature factory is an exact duplicate of the Kelly-Springfield Tire Plant at Cumberland, Maryland, the most up to date tire factory in the country.

This model is the result of considerable work and effort, in order to bring before you the complete story of the process of modern Tire Manufacture.

The exhibition will be held FRIDAY AND SATURDAY, AUG. 22nd and 23rd, and you are invited to come in and inspect it at
